

Core Skills: Intermediate Laparoscopic Skills

Friday 3 March 2023

Friday 1 September 2023

This highly practical one day workshop covers the most efficient techniques for laparoscopic intra and extracorporeal knot tying and suturing. It will increase technical skills in two handed operative techniques on realistic animal tissue models and hone the ability to tie intra and extracorporeal knots. The program has been updated to include a laparoscopic Roux-en-Y procedure utilising animal tissue for a more advanced suturing experience.

Practical sessions feature a dedicated work station for each participant, with assistance provided by a medical student camera operator.

This workshop is suitable for Service Registrars, Surgical Trainees and Consultants. Junior Doctors who have completed CTEC's JDocs: Foundations of Minimal Access Surgery workshop are also encouraged to register.

Registrants are welcome to consolidate practical laparoscopic skills and procedural experience prior to this workshop by utilising CTEC's

CTEC acknowledges the support of:

Research and Skills Practice Lab.
Please contact the Senior Course Coordinator for further information.

Workshop Content

The workshop will focus on the following tasks:

- Passing a ligature
- Extracorporeal knot tying
- Intracorporeal suturing – placing sutures
- Intracorporeal knot tying
- Formation and use of endoloop

Practical Animal Tissue Based Surgical Skill Stations

Participants will undertake the following procedures:

- Laparoscopic suturing of enterotomies
- Laparoscopic appendicectomy
- Laparoscopic assisted gastrotomy
- Laparoscopic Roux-en-Y procedure

This workshop utilises a range of animal tissue and synthetic models for the practical skill stations.

The workshop will also feature case scenarios and discussions, whilst also allowing sufficient time to practise skills.

Convenor

Dr Karim Ghanim

Suitable for

Service Registrars, Surgical Trainees and Consultants. Junior Doctors who have completed CTEC's JDocs: Foundations of Minimal Access Surgery are welcome.

CPD Approval

Reapproval in the RACS CPD Program will be sought for 2023.

Venue

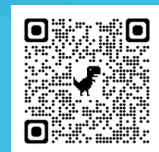

CTEC

The University of Western Australia
Entrance No.2 Hackett Drive,
Crawley
Perth, Western Australia

Fee

WA Participant: \$990

Non-WA Participant: \$1410
