

JDocs: Emergency Procedures

Thursday 18 April 2024

Thursday 7 November 2024

CTEC's JDocs: Emergency Procedures workshop aims to assist junior doctors in attaining an improved level of confidence and hands-on experience in a range of procedures, skills and behaviours for medical and surgical emergencies.

Participants will deepen their understanding and skills in basic ultrasound scanning techniques, proctoscopy and rigid sigmoidoscopy. They will also gain knowledge and familiarity with the physiology and basic techniques in suprapubic and central venous catheter insertion.

This one-day hands-on workshop features animal tissue and synthetic models and its content specifically designed to meet the essential surgical skills required to apply for specialty training, and follows the RACS Junior Doctors Curriculum Framework.

CTEC acknowledges the support of:

Workshop Content

Practical Sessions and Presentations:

- **Basics of Ultrasound:**
 - Terminology and definitions
 - Knobology: probes and modules
 - Scan planes and image orientation
 - Patient positioning
 - Ultrasound guided cannulation
- **Access techniques:**
 - CVC placement under ultrasound (sub-clavian)
 - Interosseous vascular access (EZIO)
 - Nasogastric tube placement
 - Presentation: Seldinger technique and the arterial line
- **PR Examination:**
 - Digital examination
 - Proctoscopy and sigmoidoscopy
 - Foreign body retrieval
- **Catheterisation techniques:**
 - Male and female urethral catheter
 - Suprapubic catheter

Suitable for

Junior Doctors - Interns, Resident Medical Officers and Unaccredited Registrars. This workshop is highly relevant for those interested in applying for anaesthetics, ED, ICU and surgical specialties.
