The Cutting Edge: Peripheral Nerve Block
Saturday 2 September 2017

Workshop Content
The workshop features rotating demonstration and ultrasound guided practical stations utilising:

Human and Cadaveric Prosection Models:
- Faciomaxillary and jaw blocks
- Femoral/sciatic nerve blocks
- Forearm/wrist blocks
- Knee/ankle/foot blocks
- Thoracic paravertebral/intercostal blocks
- Brachial plexus blocks

Animal Tissue Model:
- Thoracic paravertebral/intercostal blocks involving needle insertion practice on porcine tissue.

Participants will then be provided expert feedback in small groups on their nerve block techniques and knowledge, including that of ultrasound guided blocks. This will be followed by a scenario driven interactive session with the faculty panel, and:

Presentation: Safety of local anaesthetics.

Convenor
Professor Stephan Schug
Chair of Anaesthesiology
The University of Western Australia
Director of Pain Medicine, RPH

Suitable for
Emergency Physicians, General Practitioners, Emergency Department Nurses and Nurse Practitioners.

Accreditation
This workshop has been approved for a 1 day Procedural Skills Training Grant in the Domains of Anaesthetics or Emergency. ACRRM and ACEM reaccreditation is pending.

Venue
CTEC
