Selection as a Medical Student Associate on future CTEC workshops is at the discretion of the Technical Services Manager, Course Co-ordinator and/or Workshop Convenor.

Inclusion on the 2017 CTEC Medical Student Associate Register is not a guarantee of placement on a CTEC workshop.

The University of Western Australia’s Clinical Training and Evaluation Centre (CTEC) invites WA medical students to register for consideration for positions as Medical Student Associates on upcoming CTEC surgical and medical workshops. Gain valuable, unique experience volunteering on clinical workshops in specialties of particular interest.

CTEC is a leader in the provision of superior quality simulation-based training workshops for a range of health professionals, particularly in surgical and medical skills and management. Since opening in 2000, CTEC has trained over 35,000 healthcare professionals from Australia and the region with the aim of providing the best simulation training to promote patient care and safety in our hospitals.

CTEC offers the most realistic simulated hospital and operating theatre training experience for doctors and nurses in its superior equipped skills laboratory. Student Associate positions exist across a wide range of training workshops from basic surgical skills to training in complex new procedures.

Western Australian medical students provide invaluable assistance to CTEC’s expert clinical educators in its surgical and medical workshops.

Duties may include:

- Camera operation on introductory laparoscopic workshops
- Suturing / closing opportunities on cadaveric workshops under expert guidance
- Instrumentation assistance to clinical educators
- Patient models/demonstration subjects.

Benefits for Medical Student Associates:

- Hands-on experience in a superior surgical skills training centre
- The observation of workshop skills and procedural training
- Exposure to surgical and medical simulation models such as mechanical, computerised and inanimate simulations including fresh frozen cadaveric teaching models
- A Certificate of Appreciation presented upon completion of the workshop, for CV inclusion
- Meals and refreshments are included
- Volunteer on 5 workshops and receive a FREE place on a Core Skills: Foundations of Minimal Access Surgery Workshop or a Core Skills: Introduction to Surgical Skills Workshop.
